REFERENCE TABLES: POPULATION CHANGE OF COUNTIES
AND INCORPORATED PLACES IN OHIO, 1950-70

Introduction

These tables have been assembled to provide a convenient source of population information for the counties and incorporated places of Ohio. The basic data were taken from the U.S. Bureau of the Census, 1970 Census of Population, Advance Report, Ohio, PC (V1)-1970. The figures are final population counts.

Counties

Three tables present the data for Ohio's 88 counties. Table 1--The first table shows the number of inhabitants in 1950, 1960, and 1970 of Ohio counties arranged alphabetically. The last two columns give the percent change 1950-60 and 1960-70.

Table 2 -- Counties are ranked by population size both in 1970 and 1960.

Table 3 -- Counties are ranked by percent change 1960-70 and 1950-60.

Incorporated Places

The Bureau of the Census reported 921 incorporated places in Ohio in 1970. Between 1960 and 1970 fifteen new places were incorporated: Fort Shawnee, Bailey Lakes, Chilo, Stoutsville, Brice, Forest Park, Kirtland, Streetsboro, Sugar Bush Knolls, Russia, Fairlawn, Macedonia,

Norton, Richfield, and Northwood. These places have zeros recorded for population in 1950 and 1960 because they were not incorporated then. Similarly, places first appearing in 1960 have zeros for 1950 population and 1950-60 percent change.

Four communities were listed by the Census in 1950 and 1960, but not in 1970. They are Vermilion-on-the-Lake (Lorain County), Lakeville (Ashtabula County), Parkview (Cuyahoga County), and Shanesville (Tuscarawas County). Old Washington (Guernsey County) was listed as Washington in 1950 and 1960.

Table 4. Places are arranged alphabetically in Table 4, with their populations in 1950, 1960, and 1970 and percent change 1950-60 and 1960-70. Also included are the county or counties which each place is located. Thus, by referring to the alphabetical listing of Table 4, the reader can identify the counties of any places of interest found in Tables 5 and 6.

Table 5. Incorporated centers are ranked by size in both 1960 and 1970.

Table 6. This table ranks the 45 places which grew the most and the 45 places which declined the most. The 15 new places are not included in the rankings and those first appearing in 1960 are given zero ranks in the 1950-60 counties.

Table 7. The final table lists places by the counties of the state. The counties are ordered alphabetically, and incorporated centers are listed in alphabetical order within counties. Places in two or more counties

(see Table 4) are listed in the county which had the largest portion of its population as of 1960. Population totals and percent change 1960-70 are given for each county as well as for each place.

Acknowledgements

These tables were compiled by the Wisconsin Agricultural Experiment Station, through a cooperative agreement with the Economic Research Service, United States Department of Agriculture, and as a collaborator in North Central Region Cooperative Research Project NC-97, "The Relation of Population to Social Change in the North Central Region." They were prepared as part of a project on non-metropolitan population change under the direction of Glenn V. Fuguitt, Department of Rural Sociology, University of Wisconsin, and Calvin L. Beale, Economic Development Division, Economic Research Service, United States Department of Agriculture. Mary Jacobs and James J. Zuiches did the programming and computer analysis. Editing and publication of the tables were done by Donald W. Thomas, Department of Agricultural Economics and Rural Sociology, Ohio State University, with support from the Ohio Agricultural Research and Development Center, Hatch Project 393.
